

American Journal of Physiology: Gastrointestinal and Liver Physiology

No. 1. JANUARY 1991

- Influence of anesthesia, postanesthetic state, and restraint on superior mesenteric arterial flow in normal rats
L. A. Colombato, C. Sabbà, J. Polio, and R. J. Groszmann G1
- Glucose utilization by Kupffer cells, endothelial cells, and granulocytes in endotoxemic rat liver
K. Mészáros, J. Bojta, A. P. Bautista, C. H. Lang, and J. J. Spitzer G7
- Unprepared human colon does not discriminate between solids and liquids
M. Proano, M. Camilleri, S. F. Phillips, G. M. Thomforde, M. L. Brown, and R. L. Tucker G13
- Variations in muscle tone of the human rectum: recordings with an electromechanical barostat
A. M. Bell, J. H. Pemberton, R. B. Hanson, and A. R. Zinsmeister G17
- Volume regulation initiated by Na⁺-nutrient cotransport in isolated mammalian villus enterocytes
R. J. MacLeod and J. R. Hamilton G26
- Mesolimbic dopamine mediates gastric mucosal protection by central neurotensin
L. Xing, C. Balaban, J. Seaton, J. Washington, and G. Kauffman G34
- CRF triggers the CNS release of TRH in stress-induced changes in gastric emptying
L. Diop, X. Pascaud, J. L. Junien, and L. Buéno G39
- Mucosal ornithine decarboxylase, polyamines, and hyperplasia in infected intestine
J.-Y. Wang, L. R. Johnson, Y.-H. Tsai, and G. A. Castro G45
- Comparison of primary and secondary esophageal peristalsis in humans: effect of atropine
W. G. Paterson, T. T. Hynna-Liepert, and M. Selucky G52
- Effect of UDCA on intracellular and biliary pH in isolated rat hepatocyte couplets and perfused livers
M. Strazzabosco, S. Sakisaka, T. Hayakawa, and J. L. Boyer G58
- Interconversions of lipid aggregates in rat and model bile
T. E. Little, S. P. Lee, H. Madani, E. W. Kaler, and K. Chinn G70
- Use of stereoisomers of zacopride to analyze actions of 5-hydroxytryptamine on enteric neurons
P. R. Wade, G. M. Mawe, T. A. Branchek, and M. D. Gershon G80
- Excitation of neurons in the medullary raphe increases gastric acid and pepsin production in cats
R. L. White, Jr., C. D. Rossiter, P. J. Hornby, J. W. Harmon, D. K. Kasbekar, and R. A. Gillis G91
- PACAP and VIP receptors in rat liver membranes
P. Robberecht, P. Gourlet, A. Cauvin, L. Buscail, P. De Neef, A. Arimura, and J. Christophe G97
- Identification of opioid receptors on gastric muscle cells by selective receptor protection
J. R. Grider and G. M. Makhlouf G103
- Dietary regulation of intestinal ascorbate uptake in guinea pigs
W. H. Karasov, B. W. Darken, and M. C. Bottum G108
- Taurocholate induces pericanalicular localization of C6-NBD-ceramide in isolated hepatocyte couplets
J. M. Crawford, D. W. Vinter, and J. L. Gollan G119
- Inositol phosphate formation and [Ca²⁺]_i in secretagogue-stimulated rabbit gastric mucous cells
U. Seidler and A. Pfeiffer G133
- Differential effects of calcium ions and calcium phosphate on cytotoxicity of bile acids
R. van der Meer, D. S. M. L. Termont, and H. T. De Vries G142

Neuromuscular mechanisms of esophageal responses at and proximal to a distending balloon <i>W. G. Paterson</i>	G148
Regulation of acid secretion by bombesin/GRP neurons of the gastric fundus <i>M. L. Schubert, J. Hightower, D. H. Coy, and G. M. Makhoul</i>	G156
Hemodynamic characterization of conscious and ketamine-anesthetized bile duct-ligated rats <i>E. Sikuler, A. E. Buchs, A. Yaari, and A. Keynan</i>	G161
Function of rat hepatocyte tight junctions: studies with bile acid infusions <i>W. G. M. Hardison, E. Dalle-Molle, E. Gosink, P. J. Lowe, J. H. Steinbach, and Y. Yamaguchi</i>	G167

No. 2. FEBRUARY 1991

Amino acid- and amine-induced gastrin release from isolated rat endocrine granules <i>E. J. Dial, L. C. Cooper, and L. M. Lichtenberger</i>	G175
Characterization of a gastrin-type receptor on rabbit gastric parietal cells using L365,260 and L364,718 <i>S. Roche, J.-P. Bali, J.-C. Galleyrand, and R. Magous</i>	G182
Saturation of hepatic transport of taurocholate in rats in vivo <i>X. Deroubaix, T. Coche, E. Depiereux, and E. Feytmans</i>	G189
Role of CCK in regulation of pancreaticobiliary functions and GI motility in humans: effects of loxiglumide <i>W. E. Schmidt, W. Creutzfeldt, A. Schleser, A. R. Choudhury, R. Nustede, M. Höcker, R. Nitsche, H. Sostmann, L. C. Rovati, and U. R. Fölsch</i>	G197
Vitamin D-regulated calcium transport in Caco-2 cells: unique in vitro model <i>A. R. Giuliano and R. J. Wood</i>	G207
Role of kallikrein-kinin system in pathogenesis of bacterial cell wall-induced inflammation <i>R. A. DeLa Cadena, K. J. Laskin, R. A. Pixley, R. B. Sartor, J. H. Schwab, N. Back, G. S. Bedi, R. S. Fisher, and R. W. Colman</i>	G213
Ion transport across isolated pig jejunum <i>K. Holtug and E. Skadhauge</i>	G220
Intestinal motility changes in rats after enteric serotonergic neuron destruction <i>V. M. Piñeiro-Carrero, M. H. Clench, R. H. Davis, J. M. Andres, D. A. Franzini, and J. R. Mathias</i>	G232
Noncholinergic membrane potential responses to transmural nerve stimulation in the guinea pig ileum <i>J. R. Crist and X. D. He</i>	G240
Localization of Y ₁ receptors for NPY and PYY on vascular smooth muscle cells in rat pancreas <i>S. P. Sheikh, E. Roach, J. Fuhlendorff, and J. A. Williams</i>	G250
Effect of two new cholecystokinin antagonists on gallbladder emptying in opossums <i>N. Hanyu, W. J. Dodds, R. D. Layman, W. J. Hogan, and D. G. Colton</i>	G258
Characterization of binding sites for VIP-related peptides and activation of adenylate cyclase in developing pancreas <i>V. Le Meuth, N. Farjaudon, W. Bawab, E. Chastre, G. Rosselin, P. Guilloteau, and C. Gespach</i>	G265
Sucrase- α -dextrinase in diabetic BioBreed rats: reversible alteration of subunit structure <i>S. M. Najjar, L. T. Hampp, R. Rabkin, and G. M. Gray</i>	G275
Canine ileocolonic sphincter: flow, transit, and motility before and after sphincterotomy <i>M. Neri, S. F. Phillips, A. Fich, and A. C. Haddad</i>	G284
Ontogeny of epidermal growth factor receptor tyrosine kinase in rat liver <i>B. K. De, T. L. Brown, and F. J. Suchy</i>	G290
Intracellular recordings from gallbladder ganglia of opossums <i>A. J. Bauer, M. Hanani, T. C. Muir, and J. H. Szurszewski</i>	G299
Neuroimmune regulation of colonic secretion in guinea pigs <i>Y.-Z. Wang, J. M. Palmer, and H. J. Cooke</i>	G307

Effects of CCK receptor blockade on intestinal motor activity in conscious dogs <i>C. Niederau and M. Karaus</i>	G315
Index of contractility: quantitative analysis of hepatic venous distensibility <i>W. W. Latt, C. V. Greenway, and D. J. Legare</i>	G325
Effect of sustained mesenteric nerve stimulation on intestinal oxygenation in developing swine <i>P. T. Nowicki, C. E. Miller, and J. R. Hayes</i>	G333
Modulation of the migrating myoelectric complex by brain noradrenergic systems in rats <i>B. Bonaz, L. Martin, E. Beurriand, M. Manier, J. Hostein, and C. Feuerstein</i>	G340
Microcirculatory changes in sodium taurocholate-induced pancreatitis in rats <i>K. Kusterer, M. Enghofer, S. Zendler, C. Blöchle, and K. H. Usadel</i>	G346

LETTERS TO THE EDITOR

Ambulatory monitoring of human colonic motility <i>G. Bassotti, D. L. Wingate</i>	G352
--	------

No. 3. MARCH 1991

Neutrophil and Kupffer cell-induced oxidant stress and ischemia-reperfusion injury in rat liver <i>H. Jaeschke and A. Farhood</i>	G355
Sensory neurons mediate protective vasodilatation in rat gastric mucosa <i>P. Holzer, E. H. Livingston, A. Saria, and P. H. Guth</i>	G363
Thyroxine and cortisone cooperate to modulate postnatal intestinal enzyme differentiation in the rat <i>K.-Y. Yeh, M. Yeh, and P. R. Holt</i>	G371
Intestinal lactase expression and epithelial cell transit in hormone-treated suckling rats <i>K.-Y. Yeh, M. Yeh, and P. R. Holt</i>	G379
Nitric oxide mediating NANC inhibition in opossum lower esophageal sphincter <i>A. Tøttrup, D. Svane, and A. Forman</i>	G385
Correlation between electrical and morphological properties of canine pyloric circular muscle <i>F. Vogalis, S. M. Ward, and K. M. Sanders</i>	G390
Role of blood flow and alkaline secretion in acid-induced deep duodenal villous injury in rats <i>F. W. Leung</i>	G399
Separate K ⁺ and Cl ⁻ transport pathways are activated for regulatory volume decrease in jejunal villus cells <i>R. J. MacLeod and J. R. Hamilton</i>	G405
Expression of cobalamin transport proteins and cobalamin transcytosis by colon adenocarcinoma cells <i>K. S. Ramanujam, S. Seetharam, M. Ramasamy, and B. Seetharam</i>	G416
Dual pathways for agonist-stimulated arachidonic acid release in pancreatic acini: roles in secretion <i>S. J. Pandol, Y. Hsu, N. F. Kondratenko, M. S. Schoeffield-Payne, and J. H. Steinbach</i>	G423
Effect of omeprazole on gene expression in canine gastric parietal cells <i>V. W. Campbell and T. Yamada</i>	G434
pH regulation in ileum: Na ⁺ -H ⁺ and Cl ⁻ -HCO ₃ ⁻ exchange in isolated crypt and villus cells <i>U. Sundaram, R. G. Knickelbein, and J. W. Dobbins</i>	G440
Volitional augmentation of upper esophageal sphincter opening during swallowing <i>P. J. Kahrilas, J. A. Logemann, C. Krugler, and E. Flanagan</i>	G450
Transport of L-proline and α -methyl-D-glucoside by chicken proximal cecum during development <i>M. Moretò, C. Amat, A. Puchal, R. K. Buddington, and J. M. Planas</i>	G457

Characteristics of luminal bicarbonate secretion by rat cecum in vitro <i>P. Canfield</i>	G464
PAF increases hepatic vascular resistance and glycogenolysis in vivo <i>K. L. Hines, A. Braillon, and R. A. Fisher</i>	G471
Contrasting effects of PGE ₂ and PGD ₂ : ion transport in the canine proximal colon <i>C. M. Keenan and P. K. Rangachari</i>	G481
Effect of a purified somatostatin monoclonal antibody and its Fab fragments on gastrin release <i>C. H. S. McIntosh, C. L. Tang, A. J. Malcolm, M. Ho, Y. N. Kwok, and J. C. Brown</i>	G489
Efferent pathways in the reflex control of gastric emptying in rats <i>E. R. Forster, T. Green, and G. J. Dockray</i>	G499
Measurement of tone in canine colon <i>M. Neri, S. F. Phillips, and A. Fich</i>	G505
Shortening of the esophagus in response to swallowing <i>S. A. Edmundowicz and R. E. Clouse</i>	G512
pH-sensitive anion exchanger in rat lacrimal acinar cells <i>R. W. Lambert, M. E. Bradley, and A. K. Mircheff</i>	G517
Strong gastric contractions cause mucosal ischemia <i>E. H. Livingston, T. J. Howard, T. R. Garrick, E. P. Passaro, Jr., and P. H. Guth</i>	G524
Glutamate and GABA-mediated synaptic currents in neurons of the rat dorsal motor nucleus of the vagus <i>R. A. Travagli, R. A. Gillis, C. D. Rossiter, and S. Vicini</i>	G531

No. 4. APRIL 1991

Regulation of smooth muscle contraction in rabbit internal anal sphincter by protein kinase C and Ins(1,4,5)P ₃ <i>K. N. Bitar, C. Hillemeier, P. Biancani, and K. J. Balazovich</i>	G537
Adenosine and hemodynamic alterations in cirrhotic rats <i>B. Champigneulle, A. Braillon, G. Kleber, C. Gaudin, S. Cailmail, and D. Lebrech</i>	G543
Endotoxin-induced increases in regional glucose utilization by small intestine: a TNF-independent effect <i>C. H. Lang, J.-C. A. Obih, G. J. Bagby, J. N. Bagwell, and J. J. Spitzer</i>	G548
Role for iron in reactive oxygen species-mediated cytotoxicity to cultured rat gastric mucosal cells <i>H. Hiraishi, A. Terano, S. Ota, H. Mutoh, M. Razandi, T. Sugimoto, and K. J. Ivey</i>	G556
Mechanism of oleic acid-induced inhibition on gastric acid secretion in rats <i>J. C. Rhee, T. M. Chang, K. Y. Lee, Y. H. Jo, and W. Y. Chey</i>	G564
Neutrophil-derived oxidants modify CCK-OP-stimulated guinea pig gallbladder contraction in vitro <i>C. Moummi, G. W. Gullikson, M. B. Grisham, and T. S. Gaginella</i>	G571
Gastrin-releasing peptide is a transmitter mediating porcine gallbladder contraction <i>B. Schjoldager, S. S. Poulsen, P. Schmidt, D. H. Coy, and J. J. Holst</i>	G577
Characterization and modulation of rat small intestinal brush-border membrane transbilayer fluidity <i>P. K. Dudeja, R. K. Wali, J. M. Harig, and T. A. Brasitus</i>	G586
Effect of ischemia-reperfusion on lipid digestion and absorption in rat intestine <i>K. Fujimoto, V. H. Price, D. N. Granger, R. Specian, S. Bergstedt, and P. Tso</i>	G595
Regulation of glucocorticoid receptors during adaptive liver growth <i>J. V. Thottassery and J. D. Yarbrough</i>	G603
Circadian rhythms of acid and bicarbonate efflux in fasting rat stomach <i>K. R. Larsen, J. G. Moore, and M. T. Dayton</i>	G610
Excitatory and inhibitory responses of Oddi's sphincter in guinea pigs <i>T. Hirose and Y. Ito</i>	G615
Increase in serum and bile cholesterol and HMG-CoA reductase by lovastatin in rats <i>S. Yamauchi, W. G. Linscheer, and D. H. Beach</i>	G625

Pharmacological evidence for histamine H ₃ receptor in the control of gastric acid secretion in cats <i>A. Bado, F. Hervatin, and M. J. M. Lewin</i>	G631
Slow-wave activity in colon: role of network of submucosal interstitial cells of Cajal <i>R. Serio, C. Barajas-Lopez, E. E. Daniel, I. Berezin, and J. D. Huizinga</i>	G636
Effects of physical exercise on colonic motor activity <i>M. Dapoigny and S. K. Sarna</i>	G646
Relationships between pressure and flow across the gastroduodenal junction in dogs <i>C. H. Malbert and Y. Ruckebusch</i>	G653

SPECIAL COMMUNICATIONS

Improved high-pressure liquid chromatographic-fluorometric assay for measurement of adenosine in plasma <i>Y. Zhang, J. D. Geiger, and W. W. Lutt</i>	G658
--	------

LETTERS TO THE EDITOR

MMC migration: neural or muscular? <i>S. K. Sarna; C. T. Frantzides</i>	G665
--	------

No. 5. MAY 1991

Is the small intestinal epithelium truly "tight" to inulin permeation? <i>T. Y. Ma, D. Hollander, R. A. Erickson, H. Truong, and P. Krugliak</i>	G669
Absorption and metabolic effects of enterally administered glutamine in humans <i>P. Déchelotte, D. Darmaun, M. Rongier, B. Hecketsweiler, O. Rigal, and J.-F. Desjeux</i>	G677
Different receptors mediate the action of bombesin-related peptides on gastric smooth muscle cells <i>C. Severi, R. T. Jensen, V. Erspamer, L. D'Arpino, D. H. Coy, A. Torsoli, and G. Delle Fave</i>	G683
Intestinal vitamin D-dependent calbindin-D _{9k} and alkaline phosphatase in spontaneously hypertensive rats <i>D. L. Cloney, R. W. Gray, M. E. Bruns, S. H. Burnett, M. L. Smith, R. A. Felder, and D. E. Bruns</i>	G691
Effect of exercise on intestinal motility and transit in trained athletes <i>E. E. Soffer, R. W. Summers, and C. Gisolfi</i>	G698
Avian cecum: role of glucose and volatile fatty acids in transepithelial ion transport <i>B. R. Grubb</i>	G703
Prostaglandin E ₂ inhibits secretagogue-induced enzyme secretion from rat pancreatic acini <i>J. Mössner, R. Secknus, G. M. Spiekermann, C. Sommer, M. Biernat, H. Bahnsen, and W. Fischbach</i>	G711
Quantification of motor pathways to the pelvic floor in humans <i>J. Herdmann, K. Bielefeldt, and P. Enck</i>	G720
Structure and organization of electrical activity of canine distal colon <i>S. M. Ward, R. G. Keller, and K. M. Sanders</i>	G724
Glycosylation is not required for ligand or receptor binding by expressed rat intrinsic factor <i>M. M. Gordon, C. Hu, H. Chokshi, J. E. Hewitt, and D. H. Alpers</i>	G736
Postnatal expression of the canalicular bile acid transport system of rat liver <i>D. A. Novak, C. J. Sippel, M. Ananthanarayanan, and F. J. Suchy</i>	G743
Site and substrates for methane production in human colon <i>B. Flourie, P. Pelletier, C. Florent, P. Marteau, P. Pochart, and J.-C. Rambaud</i>	G752
Abnormal epithelial transport in cystic fibrosis jejunum <i>E. V. O'Loughlin, D. M. Hunt, K. J. Gaskin, D. Stiel, I. M. Bruzuzczak, H. C. O. Martin, C. Bambach, and R. Smith</i>	G758

CGRP and ANF cause relaxation of opossum internal anal sphincter via different mechanisms <i>S. Rattan, C. Moumami, and S. Chakder</i>	G764
Intracellular pathways for contraction in gastroesophageal smooth muscle cells <i>C. Hillemeier, K. N. Bitar, J. M. Marshall, and P. Biancani</i>	G770
Transport of propionate by human ileal brush-border membrane vesicles <i>J. M. Harig, K. H. Soergel, J. A. Barry, and K. Ramaswamy</i>	G776

RAPID COMMUNICATIONS

Expression and processing of human preprogastrin in murine medullary thyroid carcinoma cells <i>D. F. Daugherty, C. J. Dickinson, T. Takeuchi, D. Bachwich, and T. Yamada</i>	G783
Involvement of nitric oxide synthetic pathway in inhibitory junction potentials in canine proximal colon <i>H. H. Dalziel, K. D. Thornbury, S. M. Ward, and K. M. Sanders</i>	G789

ANNOUNCEMENTS

No. 6. JUNE 1991

EDITORIAL REVIEW

Role of polyamines in gastrointestinal mucosal growth <i>S. A. McCormack and L. R. Johnson</i>	G795
<hr/>	
Epidermal growth factor upregulates intestinal electrolyte and nutrient transport <i>K. Opleta-Madsen, J. Hardin, and D. G. Gall</i>	G807
Abnormal gallbladder motility in irritable bowel syndrome: evidence for target-organ defect <i>P. S. Kamath, H. Y. Gaisano, S. F. Phillips, L. J. Miller, J. W. Charboneau, M. L. Brown, and A. R. Zinsmeister</i>	G815
Actions of peptide YY and neuropeptide Y on chief cells from guinea pig stomach <i>J.-P. Raufman and L. Singh</i>	G820
Distinct receptors for epidermal growth factor-urogastrone in cultured gastric smooth muscle cells <i>S.-G. Yang and M. D. Hollenberg</i>	G827
Electrophysiological properties of neurons in submucosal ganglia of guinea pig distal colon <i>T. Frieling, H. J. Cooke, and J. D. Wood</i>	G835
Synaptic transmission in submucosal ganglia of guinea pig distal colon <i>T. Frieling, H. J. Cooke, and J. D. Wood</i>	G842
Cytoskeleton of intestinal goblet cells: role of microtubules in baseline secretion <i>M. G. Oliver and R. D. Specian</i>	G850
Intracellular mediators of bombesin action on rat pancreatic acinar cells <i>T. Matozaki, W.-Y. Zhu, Y. Tsunoda, B. Göke, and J. A. Williams</i>	G858
Functional specificity of jejunal brush-border pteroylpolyglutamate hydrolase in pig <i>C. J. Chandler, D. A. Harrison, C. A. Buffington, N. A. Santiago, and C. H. Halsted</i>	G865
Biliary-hepatic recycling of a xenobiotic: gallbladder absorption of methyl mercury <i>W. J. Dutczak, T. W. Clarkson, and N. Ballatori</i>	G873
Monochloramine induces contraction of guinea pig gallbladder via two different pathways <i>C. Moumami, G. W. Gullikson, and T. S. Gaginella</i>	G881
Bicarbonate-induced activation of taurocholate transport across the basal plasma membrane of human term trophoblast <i>M. Y. A. El-Mir, N. Eleno, M. A. Serrano, P. Bravo, and J. J. G. Marin</i>	G887

Isolation of intestinal epithelial cells for the study of differential gene expression along the crypt-villus axis <i>P. G. Traber, D. L. Gumucio, and W. Wang</i>	G895
Antisecretory effect of prostaglandin D ₂ in rat colon in vitro: action sites <i>K.-J. Goerg, C. Diener, M. Diener, and W. Rummel</i>	G904
Videoradiographic, manometric, and electromyographic analysis of canine upper esophageal sphincter <i>I. M. Lang, R. O. Dantas, I. J. Cook, and W. J. Dodds</i>	G911
Effect of muscle length on isometric stress and myosin light chain phosphorylation in gallbladder smooth muscle <i>R. J. Washabau, M. B. Wang, C. L. Dorst, and J. P. Ryan</i>	G920
CCK-B (gastrin) receptor regulates gastric histamine release and acid secretion <i>A. K. Sandvik and H. L. Waldum</i>	G925
Expression of a liver fatty acid binding protein/human decay-accelerating factor/HLA-B44 chimeric gene in transgenic mice <i>J. R. Hansbrough, D. M. Lublin, K. A. Roth, E. A. Birkenmeier, and J. I. Gordon</i>	G929
GLP-1-(7-36) amide, -(1-37), and -(1-36) amide: potent cAMP-dependent stimuli of rat parietal cell function <i>J. Schmidtler, W. Schepp, I. Janczewska, N. Weigert, C. Furlinger, V. Schusdziarra, and M. Classen</i>	G940
Postprandial hemodynamics and oxygenation in developing piglet intestine <i>K. D. Crissinger and D. L. Burney</i>	G951
Myosin phosphorylation and calcium in tonic and phasic contractions of colonic smooth muscle <i>W. T. Gerthoffer, K. A. Murphey, J. Mangini, S. Boman, and F. A. Lattanzio, Jr.</i>	G958
Platelet-activating factor-induced mucosal dysfunction: role of oxidants and granulocytes <i>P. Kubes, K. E. Arfors, and D. N. Granger</i>	G965
Enhanced responsiveness to CNS-induced natriuresis in anesthetized nonascitic cirrhotic rats <i>I. Colina, J. Quiroga, F. Guarner, A. Purroy, and J. Prieto</i>	G972
Cionin, a protochordate hybrid of cholecystokinin and gastrin: biological activity in mammalian systems <i>B. Schjoldager, J. Park, A. H. Johnsen, T. Yamada, and J. F. Rehfeld</i>	G977
